Projects

Personal Portfolio

- Built using React, JavaScript, TailWind CSS, react-Icons.
- This is Responsive in nature.

Keeper App | (NotePad or Sticky Note)

- Built using ReactJs, JavaScript, HTML, CSS, MaterialUI.
- We can use this as a NotePad (for taking NOTES) and also use as a Sticker Note (by adding full day work and time).
- In this we can add New Work or Notes and delete by clicking Add or Delete ICON.

Blog-app | (Blog Website)

- Built using Express, Javascript, EJS, CSS.
- Simple Blog app in this every column shows 2,3 lines and when you click on that it will take you to a separate page where you can read easily.

E-Commerce | (ONGOING)

- Built using ReactJS, NodeJS, Express and Backend by MongoDB.
- Backend is completed now working on Frontend.
- You can check Backend code on GitHub from Link.
- WebSite is Responsive in nature.
- This E-commerce website is for to buy anything from any where without travelling physically to that shop or city.
